

AIAS2026

Friday 4 September 2026

Dinamica/Ferroviario - BL28 2.1 (09:00 - 10:30)

time	[id] title	presenter
09:00	[349] Validazione sperimentale di un modello multibody flessibile ridotto del montante di un carrello elevatore per la previsione dei carichi strutturali	MAMMINI, Federico
09:15	[380] Band Gap Formation in Fractal-Inspired Mechanical Metamaterials: A Study on the Sierpinski carpet Geometry	Ms SPERLÌ, Chiara
09:30	[426] Influence of Physical Discontinuities on Eddy Current Effects in Homopolar Permanent-Magnet Arrays for Maglev Applications	PAKŠTYS, Marius
09:45	[442] Effetto dello sloshing in un recipiente a pressione per applicazioni nucleari	Dr MARIANI, Chiara
10:00	[372] Experimental Validation of a Numerical Analysis for Transient Resonance Response of an Integral Bladed Disk	LORITO, Ethan Raoul
